INDIAN PREMIER LEAGUE AUCTION (IPL AUCTION)

The **Indian Premier League** (**IPL**) is a professional Twenty20 cricket league in India contested during March or April and May of every year by eight teams representing eight different cities in India. The league was founded by the Board of Control for Cricket in India (BCCI) in 2008.

The IPL Auction provided an interface for each Team Managers to add players into their squad, put them into auction, View their team etc. The cricket lovers can easily get the information about latest IPL Auction with player details, squad details etc. They can also create their own IPL Squad and can get a price up to **10 Million Rupees** if their squad is matched with BCCI team. The main user of IPL Auction is BCCI. They can perform several tasks like : Add Team, Add Players, Auction control etc.

Modules

- ❖ **Administration**
- ❖ **Squad Creation**
- ❖ **Team Management**

Administration

Administration module deals with the tasks Player add, Team add, Pre Auction and Post Auction controls etc.

Squad Creation

It deals with the user registration, user squad management, price for squad etc.

Team Management

It deals with individual team management, Adding players to Auction, Bid the players for their own team etc.
